PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using ASP.NET Core, C#, SQL Server, REST APIs, and modern frontend technologies. Experienced in freelance development, team-based software projects, backend development, and database design. Strong interest in clean architecture, scalable software, UI/UX, and AI-powered development, with a focus on writing maintainable and user-friendly solutions.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, MVC, Minimal APIs, REST APIs, Entity Framework Core, Razor Pages, Clean Architecture, JSON, XML

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap

Database: SQL Server, Data Modeling, Complex Queries, Database Optimization

Mobile: Flutter, Kotlin

Tools & Practices: Git, GitHub, GitHub Actions, RESTful API Development, Agile Team Collaboration

UI/UX: Figma, Adobe XD, Photoshop

Data & Reporting: SQL, Excel

EXPERIENCE

Full Stack Developer — Sham Stack

Apr 2026 – Present | Gaza, Palestine · Remote

- Contributing to full-stack web development using ASP.NET Core, C#, SQL Server, JavaScript, and modern UI technologies.
- Developing and maintaining scalable web features while collaborating with the development team using Git and GitHub.
- Applying clean coding and architectural practices across frontend and backend development.

Software Engineer Intern — ByteBloom Academy

Jun 2026 – Sep 2026 | Remote

- Participating in an intensive software engineering program focused on problem-solving, clean code, algorithms, and software architecture.
- Developing Kotlin-based programming solutions and applying software engineering best practices through practical team projects.
- Following professional Git workflows and collaborative development practices.

McKinsey Forward Program Participant — McKinsey & Company

Apr 2026 – Present | Remote

- Participating in a professional development program focused on leadership, problem-solving, communication, and adaptability.
- Developing future-ready skills through structured learning and practical activities.

Junior Full Stack Developer — Freelance

Aug 2024 – Present | Remote

- Developed and delivered web and mobile applications using ASP.NET Core, C#, Entity Framework Core, REST APIs, and Flutter.
- Built responsive interfaces using React.js, HTML, CSS, and Tailwind CSS.
- Implemented authentication using JWT and managed projects using Git and GitHub.

Back-End Developer Intern — UNRWA

May 2025 – Jun 2025 | Remote

- Completed a field training internship under the mentorship of Eng. Zakaria Abu Salmiya.
- Developed backend services and RESTful APIs using ASP.NET Core and designed SQL Server databases.
- Worked on improving application performance, scalability, and data management.

SELECTED PROJECTS

Inventory & Sales Management Dashboard — Full Stack Developer

- Built a full-stack inventory and sales management dashboard using React, Tailwind CSS, ASP.NET Core Web API, Entity Framework Core, and SQL Server.
- Implemented product management, sales processing, JWT authentication, analytics, and a responsive admin interface with dark mode using a 3-tier architecture.

Dental Clinic Management System (Emad Saqr Dental Clinic) — Full Stack Developer

- Built a full-stack, Arabic RTL dental clinic platform using Next.js, TypeScript, Tailwind CSS, and Supabase (PostgreSQL, Auth, Storage, Realtime).
- Implemented role-based access control with Row Level Security, an interactive dental chart, appointment scheduling with conflict detection, billing with printable receipts, and an analytics dashboard.

Sham Stack Website — Full Stack Developer | Team Project

- Contributed to the company's web platform using ASP.NET Core MVC, C#, SQL Server, Tailwind CSS, and JavaScript.
- Implemented responsive UI sections and backend functionality within a team-based Git workflow.

AI-Haitham Educational Platform — Full Stack Developer

- Developed an educational web platform using ASP.NET Core, C#, Entity Framework Core, and SQL Server.
- Built responsive interfaces integrating backend functionality and database structures.

LinkedIn Profile Workshop — Full Stack Developer

- Developed an interactive LinkedIn profile workshop website using HTML, CSS, JavaScript, and Tailwind CSS.
- Built responsive layouts and client-side interactions polished across screen sizes.

College Blog Platform — Full Stack Developer

- Built a full-stack blogging platform using ASP.NET Core MVC, Entity Framework Core, and SQL Server.
- Implemented authentication, role-based authorization, article management, comments, and categories.

UI/UX Design Collection — UI/UX Designer

- Designed responsive interfaces and interactive prototypes for restaurant, café, and educational applications using Figma and Adobe XD.
- Applied user-centered design and accessibility principles.

EDUCATION

Bachelor of Intelligent Systems and Computer Engineering

Al-Aqsa University | 2025 – Present

Diploma in Software and Database Technology

Gaza Training Center (GTC) – UNRWA | 2022 – 2025

GPA: 91.62 / 100

CERTIFICATIONS

- AI Fluency: Framework & Foundations — Anthropic | Aug 2026
- Claude Code 101 — Anthropic | Aug 2026
- Building with the Claude API — Anthropic | Aug 2026
- Introduction to Artificial Intelligence for Digital Freelancers — International Trade Centre | Aug 2026
- Selling Your Freelancing Services Online — International Trade Centre | Aug 2026
- Full-Stack Web Development & Data Analysis | 2025
- CCNA: Introduction to Networks — Cisco | 2024
- PC Maintenance Essentials — Cisco | 2022
